

Addendum

Addendum to the paper entitled: "On some larval Microtrombidiidae (Acari: Prostigmata) parasitic on Phlebotome Sandflies (Diptera: psychodidae)" by FAIN, A. & A. BAKER, published in: *Bull. Anns Soc. r. belge Ent.* 129 (1993): 325-339:

The paragraph mentioning the host and the locality of *Phlebotrombium nigeriense* n. sp. has been inadvertently omitted in the printing of the paper cited above.

The following paragraph should be added at page.335, after the line 2:

Host and locality: Holotype and 1 paratype larvae, mounted on the same slide, from an unknown host, from Kankiya, Nigeria (coll. B. McMULLEN, 8.VI.1957); 2 paratypes larvae from *Phlebotomus martini*, from Marigat, Kenya (coll. D.M. MINTER, 3 & 5.V.1962). All this material is in the NHM, except 1 larva from Kenya which is deposited in the IRSNB.

A. FAIN
